Term Life Insurance

Term life insurance or term assurance is life insurance that provides coverage at a fixed rate of payments for a limited period of time, the relevant term. After that period expires, coverage at the previous rate of premiums is no longer guaranteed and the client must either forgo coverage or potentially obtain further coverage with different payments or conditions. If the life insured dies during the term, the death benefit will be paid to the beneficiary. Term insurance is the least expensive way to purchase a substantial death benefit on a coverage amount per premium dollar basis over a specific period of time.

Term life insurance can be contrasted to permanent life insurance such as whole life, universal
